

## The 41<sup>st</sup> Annual Obstetrics & Gynaecology Memorial Program

*Honouring An Exceptional Past, Building A Brilliant Future*

Thursday, October 25 – Friday, October 26, 2018

Delta Kingston Waterfront Hotel, 1 Johnson Street, Kingston, ON

### FRIDAY'S LEARNING OBJECTIVES

#### Obstetrics Management at Borderline Viability

-Radha Chari, MD, FRCSC, Prof. Dept. of Obstetrics & Gynaecology, Univ. of Alberta

At the end of the session, the participant will be able to:

- Understand recent changes in recommendations regarding the management of borderline viability
- Explain to the patient and families about management options in the management of borderline viability
- Apply and implement these recommendations to practice

#### Breaking Barriers: Providing Pregnancy Care for the LGBTQ Community

-Karen George, RM, Midwife, Kingston General Hospital and Community Midwives of Kingston, Kingston, ON

-Ashley Waddington, MD, FRCSC, MPA, Asst. Prof., Dept. of Obstetrics & Gynaecology, Queen's Univ.

At the end of the session, the participant will be able to:

- Identify barriers that may exist for LGBTQ patients who wish to be parents
- Describe fertility/reproductive options for LGBTQ patients
- Provide non-judgemental, supportive care to LGBTQ patients and families

#### Incorporating Simulation into the Obstetrics Curriculum – Sim One, Then Do One

-Adam Garber, MD, FRCSC, MSc (Ed.), Assoc. Prof., Dept. of OB/GYN, Univ. of Ottawa

At the end of the session, the participant will be able to:

- Describe the key components of a simulated obstetrical emergency
- Reflect on the use of simulation for team training in obstetrics
- Recognize as valuable the debriefing in conversation that follows a simulation

#### Lemons & Double Bubbles – Decoding Soft Markers in Obstetric Ultrasound

- Gregory Davies, MD, FRC SC, FACOG Prof., Dept. of Obstetrics and Gynaecology, Chair, Div. of Maternal- Fetal Medicine; Dept. of Diagnostic Radiology, Queen's Univ.

#### Global Health Update in Obstetrics

- Julie Thorne, MD, CARE Fellow, Dept. of Obstetrics & Gynaecology, Queen's Univ.

#### Obesity in Pregnancy

-Laura Gaudet, MD, MSc, FRCSC, Asst. Prof., Dept. of Obstetrics & Gynaecology, Univ. of Ottawa

At the end of the session, the participant will be able to:

- Recall at least 3 prevalent myths related to obesity & pregnancy
- Understand that it is challenging to address weight & related myths
- Recognize some of their own biases around weight & pregnancy

#### Providing Culturally Competent Care for the Indigenous Patient

-Dorothy Green, RM, Founder & Onkwehón:we Midwife

At the end of the session, the participant will be able to:

- Understand traditional, holistic & evidence – informed approaches to care

#### Update on Corticosteroid Use in Pregnancy

-Amanda Skoll, MD, FRCSC, Assoc. Prof. Emerita, Div. of Maternal Fetal Medicine, Dept. of Obstetrics & Gynaecology, UBC

At the end of the session, the participant will be able to:

- Understand the process by which the new SOGC guideline on steroids for neonatal outcomes was written
- Appreciate the changes in recommendations for corticosteroid use in the new guideline
- Develop a rationale for decision-making around corticosteroid use for improvement in neonatal outcomes

#### A: Obstetrics Q & A

-Graeme N. Smith, MD, PhD, FRCSC, Head & Professor, Dept. of Obstetrics & Gynaecology; Prof., Dept. of Biomedical & Molecular Sciences & Imaging Services, Queen's Univ.

At the end of the session, the participant will be able to:

- Update on any questions by obstetrical generalist and subspecialists.

**B: Simulation OB Emergency**

-Adam Garber, MD, FRCSC, MSc (Ed.), Assoc. Prof., Dept. of OB/GYN, Univ. of Ottawa

-Milena Garofalo, MDCM, FRCSC, CARE fellow, Dept. of Obstetrics & Gynaecology, Queen's Univ.

At the end of the session, the participant will be able to:

- Reflect on local educational needs
- Describe the varied uses of simulation in Ob/Gyn curriculum
- Recognize a valuable the debriefing conversation that follows a simulation

**C: OASIS Repair**

-Marie-Andrée Harvey, MD, MSc, FRCSC, Assoc. Prof., Dept. of Obstetrics & Gynaecology, Chair, Div. of Urogynaecology, Queen's Univ.

-Shawna L. Johnston, MD, FRCSC Assoc. Prof., Depts. of Obstetrics & Gynaecology & Urology, Div. of Urogynaecology, Queen's Univ.

At the end of the session, the participant will be able to:

- Understand the anatomy of the anal sphincter & perineum
- Perform complicated perineal repair (3
