# Speakers & Facilitators

## KEYNOTE SPEAKER

### Tanya McCance

Professor Tanya McCance is a registered nurse who has a global reputation for the development of person-centred practice. She and Professor Brendan McCormack have developed an extensive programme of work with a range of global partners through engaged scholarship and research that is underpinned by the Person-centred Practice Framework (PCPF). The PCPF is the most adopted framework for informing the development of person-centred practices and systems among multidisciplinary and interprofessional teams internationally and has been translated into 10 languages and tested in multiple healthcare contexts in 22 countries.

### Oyedeeji Ayonrinde

MD, FRCPsych, MBA

Dr. Oyedeeji (Deji) Ayonrinde is an Associate Professor (Dept. of Psychiatry) and part-time street psychiatrist. History nerd and global culture kid with intercontinental identities. Black birder and nature photographer striving to decode the rhythm of ancestral drumbeats.

### Valerie Cooper

MN, NP- Adult, CHPCN(C)

Valerine is a Hospice Palliative Care Nurse Practitioner, Mom of two sassy girls and a snarky cat, Hockey Wife, Soprano and Fitness Enthusiast

### Anne O'Riordan

Patient Partner

Recovering academic! A healthcare provider/educator who transitioned to patient partner upon retirement. I strive to foster care and caring in our healthcare system through my volunteer activities, but in the evenings knitting takes over!
